# Part A: Pupil premium strategy plan

## Statement of intent

*To reduce the achievement gap between those eligible for FSM and those not eligible across the school.*

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Baseline data for pupils indicates underdeveloped oral language skills and vocabulary gaps among many disadvantaged pupils. There are also high levels of EAL amongst students and parents generally.
2	Education and wellbeing of many of our disadvantaged pupils have been impacted by partial school closures to a greater extent than for other pupils due to food poverty, lack of access to resources, housing issues, etc. These findings are supported by national studies.
3	A much higher percentage of persistently absent pupils are in receipt of Pupil Premium (18% PP vs 10% non PP). Our assessments and observations indicate that absenteeism is negatively impacting disadvantaged pupils' progress.
4	Covid has impacted on the amount and quality of enrichment activities available to all pupils, but particularly disadvantaged pupils.
5	The need for SEMH support across the school has increased, with a higher proportion of referrals for pupils eligible for PP.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To provide intensive support for pupils eligible for PPG.	The gap between attainment of PPG and non-PPG pupils will reduce. Pupils will make good or better progress in relation to their starting points.

To improve and enhance the quality of language and communication for pupils eligible for PPG.	Pupils will have improved language and communication in school, leading to improved progress.
To enrich learning experiences by providing wider curriculum opportunities for pupils eligible for PPG.	PPG pupils will have increased enrichment opportunities and participate in more wider curriculum activities.
To support the behavioural, social and emotional wellbeing of pupils eligible for PPG	PPG pupils will have improved wellbeing and behaviour in school.
To work in partnership with parents and carers to support the learning of pupils eligible for PPG	Parents of PPG pupils will have increased participation in their child's education.

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

## Teaching (for example, CPD, recruitment and retention)

## Part B: Review of outcomes in the previous academic year

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

*Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.*

*If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?*

**See 2020-21 Impact Statement on school website.**

### Externally provided programmes

*Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England*

Programme	Provider
n/a	n/a

### Service pupil premium funding (optional)

*For schools that receive this funding, you may wish to provide the following information:*

Measure	Details
How did you spend your service pupil premium allocation last academic year?	n/a
What was the impact of that spending on service pupil premium eligible pupils?	n/a

## Further information (optional)

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- utilising a [DfE grant to train a senior mental health lead](#). The training we have selected will focus on the training needs identified through the online tool: to develop our understanding of our pupils' needs, give pupils a voice in how we address wellbeing, and support more effective collaboration with parents.
- offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities will focus on building life skills and developing healthy bodies and minds. Disadvantaged pupils will be encouraged and supported to participate.
