

The GEM Federation Mental Health and Wellbeing Policy

Introduction

This document is a statement of the aims, principles and strategies in promoting mental health and wellbeing at the Bessemer and Keyworth Federation. It was developed during the Autumn of 2021 through a process of consultation with staff, parents, children and governors. It will be reviewed regularly by the governors. This policy is made available as part of the induction process for new staff.

Aims, objectives and expectations

The Mental Health and Wellbeing Policy describes the school's approach to promoting positive mental health and wellbeing for all members of our school community. We pursue this aim using both universal, whole school approaches and targeted approaches aimed at vulnerable pupils. In addition to promoting positive mental health, we aim to recognise and respond to mental ill health. We aim to promote a safe and stable environment where everyone feels secure and supported, and is expected to be upheld and promoted by all adults working in the school.

Policy objectives:

- to promote positive mental health in all staff and pupils
- to increase the understanding of common mental health issues
- to define the role of staff in recognizing early signs of mental ill health and supporting pupils
- to support staff or pupils struggling with their mental health or wellbeing
- to define the role of the Executive Headteacher & Heads of School in promoting positive mental health and wellbeing across the federation
- to define the role of the governors
- to define the role of parents

Lead Members of Staff

Any member of staff who is concerned about the mental health or wellbeing of a pupil should fill out a SEND referral form in the first instance and submit this to the Inclusion Team. If there is a fear that the pupil is in danger of immediate harm then the normal child protection procedures should be followed with an immediate referral to the designated safeguarding leads. If the student presents a medical emergency then the normal procedures for medical emergencies should be followed, including alerting the first aid staff and contacting the emergency services if necessary.

Teaching about Mental Health

The skills, knowledge and understanding needed by our students to keep themselves and others physically and mentally healthy and safe are included as part of our developmental PSHE curriculum. The specific content of lessons will be determined by the specific needs of the cohort we are teaching but there will always

be an emphasis on enabling pupils to develop the skills, knowledge, understanding, language and confidence to seek help, as needed, for themselves or others.

We will follow the PSHE Association Guidance to ensure that we teach mental health and emotional wellbeing issues in a safe and sensitive manner which helps rather than harms.

We will ensure that staff, pupils and parents are aware of sources of support within school and in the local community. What support is available within our school and local community, who it is aimed at and how to access it is outlined in Appendix A.

We will display relevant sources of support in communal areas and classrooms, and will regularly highlight sources of support to students within relevant parts of the curriculum. Whenever we highlight sources of support, we will increase the chance of student help-seeking by ensuring students understand:

- What help is available
- Who it is aimed at
- How to access it
- Why to access it
- What is likely to happen next

Warning Signs

School staff may become aware of warning signs which indicate a student is experiencing mental health or emotional wellbeing issues. Staff observing any of these warning signs should communicate their concerns with the Inclusion Team via the SEND referral form, and/or the Designated Safeguarding Leads if staff believe that there is a risk of immediate harm.

Possible warning signs include:

- Becoming socially withdrawn and quiet
- Regressions in behavior or development
- Changes in mood and behaviour
- Changes in academic achievement
- Hurting themselves, or talking about hurting themselves
- Loss of weight
- Toileting accidents, or a change in bladder or bowel control
- Frequently complaining of headaches or stomach aches
- Expressing feelings of failure, uselessness or loss of hope
- Secretive behavior
- Missing or avoiding school
- Behaviour that does not seem age appropriate (eg. sexualised language)
- Changes in eating or sleeping habits
- Skipping PE or getting changed secretly
- Physical signs of harm that are repeated or appear non-accidental

Managing Disclosures

A pupil may choose to disclose concerns about themselves or a friend to any member of staff, so all staff need to know how to respond appropriately to a disclosure. If a pupil chooses to disclose concerns about their own mental health or that of a friend to a member of staff, the member of staff's response should always be calm, supportive and non-judgmental. Staff should listen rather than advise and our first thoughts should be of the pupil's emotional and physical safety rather than of exploring 'Why?'

For more information about how to handle mental health disclosures sensitively also refer to the federation's **Safeguarding Policy**.

All disclosures should be recorded in writing. This written record should include:

- Date
- The name of the member of staff to whom the disclosure was made
- Main points from the conversation
- Agreed next steps

This information should be shared with the Inclusion Team and/or the Designated Safeguarding Leads if staff believe that there is a risk of immediate harm.

Confidentiality

We should be honest with regards to the issue of confidentiality. If it is necessary for us to pass our concerns about a student on, then wherever possible we should discuss with the student:

- Who we are going to talk to
- What we are going to tell them
- Why we need to tell them

We should never share information about a pupil without consulting or informing parents/carers first. In most cases we will receive their consent, though there are certain situations (e.g. where a pupil is at serious risk of harm) when information must always be shared with a member of the designated safeguarding team, who will then take the lead on communicating with parents/carers.

Always report a disclosure to the Inclusion team and/or the Designated Safeguarding Leads if staff believe that there is a risk of immediate harm. This helps to safeguard our own emotional wellbeing as we are no longer solely responsible for the student; it ensures continuity of care in our absence; and it provides an extra source of support. We should explain this to the pupil and discuss with them who it would be most appropriate and helpful to share this information with.

Parents/carers will be kept informed and contacted at the earliest convenience, unless a child gives us reason to believe that there may be underlying child protection issues or safeguarding concerns. The Designated Safeguarding Leads will be responsible for information sharing in such cases, as per our safeguarding policy.

Working with parents & carers

Where it is deemed appropriate to inform parents/carers, we need to be sensitive in our approach. Before disclosing to parents/carers we should consider the following questions (on a case by case basis):

- Can the meeting happen face to face? This is preferable.
- Where should the meeting happen?
- Who should be present? Consider parents/carers, the pupil and other members of staff.
- What are the aims of the meeting?

It can be shocking and upsetting for parents/carers to learn of their child's issues and they may respond with anger, fear or upset during the first conversation. We should be accepting of this (within reason) and give the parent/carer time to reflect.

We should always highlight further sources of information and give them information to take away where possible, as they will often find it hard to take much in whilst coming to terms with the news that you're sharing. Sharing sources of further support aimed specifically at parents/carers can also be helpful too, e.g. parent helplines and forums.

We should always provide clear means of contacting us with further questions and consider booking in a follow-up meeting or phone call, as parents/carers often have many questions as they process the information. Finish each meeting with agreed next steps and always keep a brief record of the meeting on the child's confidential record.

Working with all parents

In order to support all parents/carers, we will:

- Highlight sources of information and support about common mental health issues on our school website
- Ensure that all parents are aware of who to talk to, and how to go about this, if they have concerns about their own child or a friend of their child
- Make our mental health & wellbeing policy easily accessible to parents
- Share ideas about how parents can support positive mental health in their children through our newsletter and parent-teacher communication
- Keep parents informed about the mental health topics their children are learning about in PSHE and share ideas for extending and exploring this learning at home

Support for pupils

- All pupils will be able to access a range of support within the school. All Year groups have a Phase Lead to provide pastoral care as well as the pupil's class teacher

- Each classroom has a Discussion Box and/or emotion strips for pupils to communicate with the teacher. PHSE lessons support the teaching of wellbeing and mental health. Assemblies are also used to reinforce positive messages.
- Pupils can be identified by staff and parents and referred to relevant targeted interventions; our trained staff will facilitate group and one to one sessions
- Pupils requiring more intensive support can be referred for therapy sessions via the SEND referral form if appropriate
- Pupils who need further professional and medical support will be referred to CAMHS via GP or through the Inclusion Team

Supporting Peers

When a pupil is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In order to keep peers safe, we will consider on a case by case basis which friends may need additional support. Consent will be sought by all parents/carers. Discussion can include:

- What it is helpful for friends to know and what they should not be told
- What is a manageable approach to being in school

Additionally, we will want to highlight with peers:

- Who they can speak to if they are worried about their friend, or the impact that it is having on them
- Safe sources of further information
- Healthy ways of coping with the difficult emotions they may be feeling

Examples of good practice may include:

- organising whole-school or year group assemblies to discuss specific mental health and wellbeing issues
- arranging for external speakers to visit and discuss topical issues such as the use of social media or the impact of body image
- using key dates such as Mental Health Awareness Week and World Mental Health Day as opportunities to raise the profile of mental health
- holding designated health and wellbeing days, organising activities across the curriculum
- dedicating time to celebrate pupils' academic and extracurricular achievements
- including pupil wellbeing in lesson observation criteria for teaching staff
- using mindfulness sessions to prepare pupils for a relaxed day
- using displays and bulletins to signpost pupils to sources of support

Training

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training to enable them to keep students safe. The MindEd learning portal provides free online training suitable for staff wishing to know more about a specific issue.

Training opportunities for staff who require more in depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due to developing situations with one or more students. Where the need to do so becomes evident, we will arrange training sessions for relevant staff to promote learning or understanding about specific issues related to mental health.

Suggestions for individual, group or whole school CPD should be discussed with our Senior Leadership Team, who can also highlight sources of relevant training and support for individuals as needed.

In School Support:

Class Teachers

Parents and carers can discuss concerns with class teachers, if necessary the class teacher can discuss this with their phase leader. The decision may be to pass this concern on to the Inclusion Team, the Designated Safeguarding Leads, or to continue to monitor the student.

Zones Of Regulation

Your child may be offered a space in a Zones of Regulation group, a cognitive-behavioural approach to helping students gain skills in self-regulation.

ELSA

It may be that the Inclusion Team decide that your child could benefit from our ELSA intervention. These are sessions based on building emotional literacy, understanding and coping with feelings about themselves and others, developing their self esteem and having positive interactions with others.

One to One Therapeutic Support

Some students will be identified as needing more support, in this instance we will offer a one to one therapeutic intervention which will take place during school hours. Students will be referred by their class teachers and the level and duration of support will be determined by the Inclusion Team. Parents or carers will be asked to attend a meeting before the intervention can begin.

Mental Health Support for Young People:

National Support

Calm (app):

Calm is the #1 app for sleep and meditation. Join the millions experiencing better sleep, lower stress, and less anxiety. Calm app is free but if you want the premium subscription with many more features it is £29.99 a year.

Website: www.calm.com

Family Wellbeing Support:

Family Early Help (FEH) Southwark: *'The right help, at the right time, in the right place'*

In Southwark, we want to ensure that children, young people and families receive the best possible support at times of need in order to address and resolve issues rapidly and effectively. Sometimes a child, young person or family faces a number of different problems at the same time and requires more support to resolve them. Where needs are beyond the level that universal services can address, a range of targeted services are provided in partnership with others (children and family centres, health professionals, schools, and the voluntary sector) to continue to assist a family to prevent problems from escalating. Southwark's services operating at a targeted level as part of the Early Help offer are:

Family Early Help Duty

Phone: 0207 525 1922 which will give four options:

1. General enquiries and signposting¹
2. Family Early Help Duty Manager for general advice including consultations around potential and new referrals and current casework
3. Education, Inclusion and Attendance support and advice including all enforcement activity
4. Parenting support and advice and information on parenting course and group work programmes

Web: <https://localoffer.southwark.gov.uk/education/specialist-services-offered-by-the-council/family-early-help-feh/>

Care for the family:

Help and advice to help strengthen families with marriage support, parent support and bereavement support.

Web: www.careforthefamily.org.uk

Phone: 029 2081 0800

Common Sense Media:

[Common Sense Media](http://CommonSenseMedia.org) rates movies, TV shows, books, and more so parents can feel good about the entertainment choices they make for their kids. We offer the largest, most trusted library of independent age-based ratings and reviews. Our timely parenting advice supports families as they navigate the challenges and possibilities of raising kids in the digital age. [Learn how we rate and review](#) and see our [founding editors' 10 Beliefs](#). *Our vision: Families taking charge of their digital choices.*

Web: www.common sense media.org

Insight timer (app):

The number one free app for sleep, anxiety and stress. The insight timer provides Mindful activities to boost your mental health and emotional wellbeing through mindfulness, meditations, podcasts, music, morning activities and psychoeducation for parents, on sleep and meditations which works around the time you have available whether it's two minutes to an hour. More time is spent meditating with our timer than anywhere else. Customise your routine and drift away!

Qwell by Kooth

Free online mental health support without waiting lists, commissioned by the NHS. Download the app and sign up for one-to-one regular or drop in sessions with an accredited therapist

Web: www.qwell.io

Support by Category

Bereavement:

Child Bereavement UK:

Supports families and educates professionals when a baby or child of any age dies or is dying or when a child is facing bereavement.

Web: www.childbereavementuk.org

Child Death Helpline:

The helpline aims to provide a quality freephone service to anyone affected by the death of a child of any age. Callers to the helpline might be parents, grandparents, siblings, other family members, friends or involved professionals.

Web: www.childdeathhelpline.org.uk

Cruse:

Cruse has a UK-wide network of branches that provide bereavement support to anyone who needs it.

Web: www.cruse.org.uk

Grief Encounter:

Grief Encounter helps families address difficult issues such as death and helps them make sense of the hurt and confusion.

Web: www.griefencounter.org.uk

Headspace:

Podcasts on loss, meditations of how to deal with loss, articles from other people's experiences of loss.

<https://www.headspace.com/blog/category/death/>

Hope Again:

Hope Again is the youth website of Cruse Bereavement Care. It is a safe place where young people who are facing grief can share their stories with others.

Web: www.hopeagain.org.uk

Living On:

The loss of a loved one can be difficult for children to understand. Sometimes it's even harder for adults to talk about it. Living On is here to help you with these conversations and to encourage children to

ask the questions they may have. To discover ways and strategies to deal with their grief, adapt

to the changes it may have brought to their lives and manage their difficult feelings. We encourage children and young people to support each other. With the right support, bereaved children and young people can continue to reach their full potential and become resilient adults.

Survivors of Suicide Loss:

Forget-Me-Not offers support for all those affected by suicide loss, the group is self-led, and informal where you can connect with other survivors.

Web: survivorsofsuicidelos.org.uk

The Compassionate Friends:

The Compassionate Friends has been offering support to families in their time of greatest need.

Web: www.tcf.org.uk

WAY:

WAY is the only national charity in the UK for men and women aged 50 or under when their partner has died. It's a peer-to-peer support group run by a network of volunteers who have been bereaved at a young age themselves, so they understand exactly what other members are going through.

Web: www.widowedanyoung.org.uk

Winston's Wish:

We support children and young people after the death of a parent or sibling. This is one of the most devastating losses a child will ever face.

Web: www.winstonswish.org

Phone: 08088 020 021

Domestic Violence Support:

Athena Run By Refuge:

Supporting those who have experienced violence and abuse is at the core of everything we do. A range of specialist services are available to help survivors access safety and rebuild their lives. Refuge can help you to explore what support is needed.

Web: www.refuge.org.uk/our-work/our-services/one-stop-shop-services/athena/

Phone: 0808 2000 247

Womens Aid:

We are a grassroots federation working together to provide life-saving services and build a future where domestic violence is not tolerated.

Web: www.womensaid.org.uk/

Phone: 0808 2000 247 (Freephone 24hr National

Domestic Violence Helpline)

The Hide Out:

Helping young people understand domestic abuse, and how to take positive action.

Website: www.thehideout.org.uk

Drugs and alcohol advice:

Drink Aware:

Information on the effects of alcohol.

Web: www.drinkaware.co.uk

Smoke Free:

Information, advice and support to quit smoking.

Web: www.smokefree.nhs.uk

Talk To Frank:

Confidential and friendly information and advice about drinking and drugs.

Web: www.talktofrank.com

Equality advice:

Equality & Human Rights Commission:

Gives free advice, information and guidance to individuals on equality, discrimination and human rights issues.

Web: www.equalityhumanrights.com

London Lesbian & Gay Switchboard:

Free & confidential support & information to lesbian, gay, bisexual & transgendered communities throughout the UK.

Web: www.llgs.org.uk

Albert Kennedy Trust:

Supports lesbian, gay, bisexual and trans homeless young people in crisis.

Web: www.akt.org.uk

Gendered intelligence:

Gendered Intelligence (GI) is a trans-led charity working across the UK. We were originally a Community Interest Company, established in 2008. Our mission is to increase

understandings of gender diversity. Our vision is of a world where people are no longer constrained by narrow perceptions and expectations of gender, and where diverse gender expressions are visible and valued. We work with the trans community and those who impact on trans lives; we particularly specialise in supporting young trans people aged 8-25.

Web: www.genderedintelligence.co.uk

Mermaids:

Helping gender-diverse kids, young people and their families since 1995

Website: <https://mermaidsuk.org.uk/>

Mind Line Trans:

Mindline Trans+ is an emotional and mental health support helpline for anyone identifying as transgender, non-binary, genderfluid. They also support family members, friends, colleagues and carers.

Phone: MindLine Trans: 0300 330 5468

Web: www.mindlinetrans.org.uk

Financial and Legal support:

CAFCASS (Children & Family Court Advisory and Support Service)

Cafcass represents children in family court cases in England. We put children's needs, wishes and feelings first, making sure that children's voices are heard at the heart of the family court setting, and that decisions are made in their best interests. Operating within the law set by Parliament (Criminal Justice and Court Services Act 2000) and under the rules and directions of the family courts, we are independent of the courts, social services, education and health authorities and all similar agencies.

Our duty is to safeguard and promote the welfare of children going through the family justice system. Our experienced Family Court Advisers may be asked by the court to work with families and then advise the court on what we consider to be the best interests of the children involved in three main areas:

- divorce and separation, sometimes called 'private law', where parents or carers can't agree on arrangements for their children
- care proceedings, sometimes called 'public law', where social services have serious concerns about the safety or welfare of a child
- adoption, which can be either public or private law.

Phone: 0300 456 4000

Website: <https://www.cafcass.gov.uk/>

Email online form: www.cafcass.gov.uk/contact-us/

Citizens advice Southwark:

Our offices in Bermondsey, Peckham and Walworth operate 5 days a week – advice is available over the telephone, by email, online, and at our drop-in sessions.

We run a number of specialist projects and services to help people with particular requirements – browse our [Projects and Services](#) page to find out what we can help with.

We provide free, confidential, independent and impartial advice to help people resolve their problems with money, housing, employment, certain legal issues, and much more besides.

We gather information about the problems people are currently facing and campaign for social justice, using our valuable evidence to influence policymakers to make decisions that

are fairer for everyone.

We seek to empower clients where possible to gain the confidence to deal with their problems. Our work improves clients' financial situations, as well as their overall health, stress levels and well being.

Website: www.citizensadvicesouthwark.org.uk/advice/#tele

Phone: 0344 499 4134 (Mon, Wed, Thurs and Fridays 9.30-4.30pm. Tuesday: 9.30-7.00pm)

Southwark Legal Advice Network:

Southwark Legal Advice Network aims to improve access to quality assured advice services and self-help information in Southwark for people in greatest need. This website provides information about advice services in Southwark, listed according to the area of advice – Money/Debt/Tax, Housing & Homelessness, Employment, Welfare Benefits & Tax Credits, Immigration, Discrimination, Goods & Services, Fuel Costs, Family, Community Care, Domestic Violence, Education, Personal Injury and Public Law.

Advice agencies can provide information, advice and help to resolve your basic problems, and typically offer free drop-in sessions, for which no appointment is necessary; specialist agencies can provide legal services, but can only take on cases by referral from other agencies.

Website: www.southwarkadvice.org.uk/

Phone: 020 7358 7025 (housing, discrimination, benefits. Monday to Friday 10.00 to 13.00 and 14.00-16.00)

Practice your daily meditation and mindfulness exercises from any device. Smiling Mind is a unique tool developed by psychologists and educators to help bring balance to your life. We suggest 10 minutes a day. What are you waiting for?

Web: www.smilingmind.com.au

Your local GP service:

If you're worried about anything relating to physical or emotional health go to your local GP. They can refer you for specialist services such as Physiotherapy etc. but also support you with mental health issues. Furthermore if you have a child who you are worried about and need to get more support (for example; if you feel they have special educational needs or emotional and behavioral challenges) the GP can give you advice and refer them on to appropriate services.

Web: www.nhs.uk/service-search/other-services/GP/LocationSearch/5

Sexual Abuse:

Mosac:

Mosac supports all non-abusing parents and carers whose children have been sexually abused. With 25 years of experience, we provide a range of support services and information for parents, carers and professionals dealing with child sexual abuse.

Web: <https://mosac.org.uk/>

Phone: MOSAC NATIONAL HELPLINE: Freephone: 0800 980 1958 or you can call on 020 8293 9990 (charges apply and may vary, subject to your network provider).

Oneinfour (219 Bromley Road, Bellingham, London SE6 2PG):

One in Four specializes in supporting survivors of sexual violence and abuse, and particularly survivors of child sexual abuse and trauma.

Phone: 020 8697 2112 **Email:** admin@oneinfour.org.uk

Single Parent Support:**Gingerbread:**

We want a society in which single parent families are treated equally and fairly. We provide information to help single parents support themselves and their family. We run programmes to equip single parents with the skills and opportunities to gain employment. We campaign and influence policy to reduce stigma against single parents, and make services more accessible to all families, without prejudice.

Web: www.gingerbread.org.uk
